Introduction

Arab Women Investors Union

The Arab Women Investors Union is an international organization headquartered in Egypt. Established on the 1st of June 2005 during the eighty-first round of the Arab Economic Ministers at the Arab League's headquarters, with Resolution No. 1272, the Union has since evolved into one of the specialized Arab federations under the Council of Arab Economic Unity, operating within the framework of the Arab League. In 2015, we further expanded our scope with the establishment of the Businessmen and Arab-Investors Committee headed by H.E. Sheikh Saleh Kamel, followed by the establishment of the Youth committee in 2017.

Our mission is to empower Arab women and foster investment in Arab countries by collaborating with prominent figures in the business community, including both male and female entrepreneurs and businesspeople. We seek to enrich their economic and social roles, thereby contributing to the development of Arab societies and enhancing economic investment relations within the Arab world.

We are committed to activating women's roles in encouraging international-Arab cooperation, thereby advancing both women and society as a whole.

By leveraging international technology, Arab capital, and the collaborative advantages offered by Arab, African, and friendly countries, we work closely with all sectors of the business community that recognize the pivotal role of women in driving development towards comprehensive and sustainable growth.

We are proud to showcase some of our past activities at the Arab Women Investors Union, illustrating our commitment to excellence and impactful contributions to the business and investment landscape worldwide.
