# WALLONIA EXPORT
# & INVESTMENT AGENCY

The Wallonia Export & Investment Agency (AWEX) is the institution in charge of the development and management of Wallonia's domestic and international economic relations.

Through a personalized, innovative, and sustainable approach, AWEX supports Walloon companies - regardless of their size, sector, or target market - in every step of their international endeavors. This includes exports, technological partnerships, and development abroad.

The agency's vast network of connections ensures the best advisors are always by your side. Our local anchors and agents abroad are capable of providing unparalleled insight to take your company to the next level. In addition, our connections will help establish your business in the global marketplace and promote it throughout the world. Training, incentives, and international financing are also available.

AWEX is also committed to strengthening Wallonia's position as the premier gateway for international investors seeking success in the heart of Europe. We work closely with them to inform, convince, and advise in every stage of their development.

Feel free to get in touch with one of our local or international agents via our websites listed above.

In our network of more than 400 employees in nearly 100 countries around the world, there is always someone ready and willing to support you in your approach.

# OUR PARTNERS

# AGENCE DU NUMERIQUE & DIGITAL WALLONIA

The Agence du Numérique is the public service body responsible for monitoring techno-logical innovation and habits relating to digital technology, advising the Walloon Govern-ment and its departments on this area, and leading or coordinating operational or commu-nication measures to support Wallonia's digital transformation by drawing on the Digital Wallonia strategy approved in December 2015.

**What is Digital Wallonia?**

1.      A strategy. Adopted by the Walloon Government, it sets the priorities and goals for public policies and the support framework for private initiatives to promote digital transformation.

2.      A platform. Governed collaboratively by the Walloon digital ecosystem, it provides services and support to public and private players engaged in implementing the digital strategy.

3.      A brand. Championed by all those involved in Wallonia's digital transformation, it guarantees their visibility and unites the initiatives implemented within the framework of the digital strategy.

# TWIST

Twist (Technologies from Wallonia for Image, Sound and Text) is a business network of companies and a community platform that promotes innovation and growth in digital industries in southern Belgium, and mainly in digital sectors of Image and Sound.

In 12 years, Twist has built a solid network of some 110 members (representing 4,500 direct jobs and a turnover of 1 billion euros), 80% of which are SMEs, 5 television channels, 6 universities & research centers. and 3 investment funds. TWIST is also supported by its public authorities and is an official partner of Digital Wallonia, the digital strategy adopted by the Government of Wallonia.

In this context, Twist has developed a strong expertise in the "live sport & entertainment" industry (Sport & e-sport, Entertainment TV, Museum, Attractions/Theme parks, Live show, Live music, cinema).

**Mr Stéphane PEETERS**
+32 495 365 360
stephane@captainai.ai

**COMPANY BACKGROUND**
CAPTAIN AI ACADEMY is a global AI consultancy and education leader. With operations spanning Europe, Latin America, and Saudi Arabia, we empower businesses through AI integration. Our three pillars—Academy, Consultancy, and AI Labs—help organizations innovate, streamline operations, and stay competitive in a rapidly evolving technological landscape.

**ADDED VALUE**
CAPTAIN AI ACADEMY has extensive experience working with business leaders, identifying the challenges they face when integrating AI. This led to the development of Prometheus AI—a multi-agent hub managed by a master AI. This solution simplifies AI adoption, eliminates the need for extensive training, embeds business workflows, and offers pay-per-use pricing, boosting productivity and reducing costs.

**RANGE OF PRODUCTS**
Our portfolio is spearheaded by Prometheus AI, a revolutionary hub managed by a master AI, which directs multiple specialized models and agents. It simplifies AI integration for businesses, embeds automated workflows, and reduces costs through a single subscription and pay-per-use pricing model.

**MAIN REFERENCES**
Trusted by industry leaders across sectors, our AI solutions are used by companies such as BIA Group, Solform, and Dutra, as well as organizations like Atlas Services Belgium (Orange group), Cerame-Unie, IFAPME, and the Ordre des Experts Comptables.

**CERTIFICATIONS**
Our network of 25 AI experts, certified by IBM, spans from Brussels to Marseille. As an official IBM partner, CAPTAIN AI ACADEMY guarantees top-tier AI expertise, helping businesses adopt cutting-edge solutions.

**LOOKING FOR/CONTACTS WITH**
Seeking partners with strong expertise in technology and digital transformation, especially in AI solution integration and digital strategy consulting.
We are considering multiple distribution channels:
1. Direct Sales with a local team for personalized service;
2. Distribution Partners to promote our solutions through established networks;
3. Joint Ventures or Strategic Partnerships with AI, consulting, or cloud companies for broader deployment.

Additionally, we are looking for investors to help scale Prometheus AI and expand globally.

**Mr Philippe BAIJOT**
+32 495 89 73 54
philippe.baijot@d2d3.co

## COMPANY BACKGROUND
Since 2004, we have developed vertical solutions to meet the needs of the various specific businesses in the public sector, such as works management, cemetery management, town planning management, mobility management and finally energy management.

## ADDED VALUE
Thanks to our know-how and our collaborations, we are specialized in the specific development of various applications, in the encoding, creation and management of databases that need to be visualized on a map to facilitate the job.

All the data rendered visually on a map are interconnected with other relevant software within the local authority, so no need to duplication data's to do job effectively.

## RANGE OF PRODUCTS
• All In Carto to view data on a map in order to manage them with another vision of reality : interpret data visually
• Cimsystem to manage cemeteries : get an overview of your cemeteries in one click
• Civis-STP for the management and the planning of your interventions for municipal works
• GODP for the Occupation of the Public Domain and the management of road signs

## MAIN REFERENCES
More than 1000 municipalities in France and 100 in Belgium trust us each year to update their cartographic data.

+32 491 87 09 87
mathilde.miessen@d-carbonize.eu

## COMPANY BACKGROUND
Driven by the climate emergency, D-Carbonize is positioned as a Climate-Tech, offering companies cutting-edge technology and personalized support to measure and reduce their carbon footprint.
At the heart of our offering is the Carbon Cockpit, a Saas platform that enables companies to take full responsibility for managing their carbon reduction strategy. The solution is available in two versions: Scan, ideal for a first carbon experience, and the advanced version, designed to meet the needs of large companies seeking certification.

## ADDED VALUE
• High level of precision: our software can cover all carbon emissions
• Intuitive tool: our software is simple to use, no carbon experience is required

## RANGE OF PRODUCTS
We have one software (The Carbon Cockpit) in 2 versions:
1. The Carbon Cockpit Scan for a first carbon experience. The tool is:
    • Simple: no carbon experience required
    • Fast: > 4 hours to estimate your carbon footprint
    • Actionable: lower your emissions using our reduction action library.
2. The Carbon Cockpit Expert for larger companies and groups looking for complex, complete and conform carbon accounting.

## COMPANY BACKGROUND

intoPIX is an innovative technology provider of low power, low complexity image processing and video compression IP-cores. The technologies that we license are enabling the simplified connectivity, reduced latency, reduced power and an increased quality in many devices and applications. intoPIX IP-cores & SDKs are licensed to customers all over the world for ASIC, FPGA, GPU or CPU.

## ADDED VALUE

We are showing how sensors & cameras, automotive (ADAS), mobile & IoT, 8K/4K, wireless AV or cloud gaming get benefit from the intoPIX technologies.
intoPIX is demonstrating new efficient ways to transmit and manage real-time video with real use cases.
•        Reducing device's power consumption, complexity, memory, and video bandwidth.
•        Offering zero latency with lossless quality (from 4:1 down to 36:1 compression)

## RANGE OF PRODUCTS

TicoXS: The low latency lightweight codec offering 10:1 compression & standardized at ISO, as JPEG XS
TicoRAW: The low-power image sensor compression for RAW CFA Bayer data
TicoXS FIP: The codec offering the new Flawless Imaging Profile with JPEG to carry 4K/8K over gigabit network (wired/wireless) with error concealment & low power.
Titanium SDK: Software Development Kit for streaming low-Latency & high-quality video using SMPTE2110, JPEG XS & IPMX

7812 ATH
BELGIUM
+32 478 481 925

sales@timi.eu
https://timi.eu/
LinkedIn: https://www.linkedin.com/company/timisuite

**Mr Thomas VAN HEUGEN**
+32 478 48 19 25
thomas@timi.eu

**COMPANY BACKGROUND**

TIMi is a powerful tool for organizations aiming to leverage data as a competitive advantage. It enables fast, automated deployment of industrialized solutions for sales optimization, using both simple (KPIs, dashboards) and advanced techniques (analytics, machine learning). TIMi is accurate, user-friendly, affordable, and efficient in storage. It serves general analytics needs and offers specialized solutions for telecom, banking, retail, and insurance.

**ADDED VALUE**

TIMi stands out by enabling large-scale data processing on minimal infrastructure. Unlike other Big Data solutions that require hundreds of PCs, TIMi operates on a single laptop, offering the same processing power. This affordability drives our success in Africa and Latin America, where we process data for over 300 million people daily. Additionally, TIMi creates highly accurate predictive models in minutes rather than months.

**RANGE OF PRODUCTS**

We developed TIMi, a next-gen analytical platform with four tools:
•	Anatella for solving the most advanced machine learning problems. It is also a collaboration platform that allows easy collaboration between "expert coders" and less technical "business" users;
•	TIMi Modeler for fully automated creation of high-accuracy predictive models (AMLs);
•	Stardust for multivariate 3D segmentation of all your customer base;
•	Kibella for unlimited self-service dashboarding.

TIMi is deployed in over 40 countries and processes data for 300M+ telecom users daily.

# BOTRONICS

Rue de l'industrie, 20
1400 NIVELLES
BELGIUM
+32 476 20 29 60

eric@botronics.be
https://www.ixi.golf/
Facebook: https://www.facebook.com/ixi.golf
LinkedIn: https://www.linkedin.com/company/botronics
Twitter: https://x.com/ixigol

**Mr Éric PIRAUX**
+32 46 20 29 60
eric@botronics.be

**COMPANY BACKGROUND**
While driving his autonomous car, Eric wonders why he still has to handle his trolley on the golf course. He then gathers Antoine and Maxime with the intention of creating an intelligent and autonomous trolley. Botronics wasborn from this meeting. With now 3 additional collaborators, we will go to the PGA Show 2025 to present the trolley of the future there. This product, still in development, is however on the courses every week with our ambassadors. We will industrialize the product to launch the product in 2025, starting with a crowdfunding.

**ADDED VALUE**
We use embedded artificial intelligence to create a golf trolley that takes care of itself. It ensures that your equipment is always in the right place at the right time. For the golfer, this represents peace of mind, allowing them to enjoy their game. As a result, they perform better and have more fun on the course. The playing experience is comparable to playing with a professional caddy.

**RANGE OF PRODUCTS**
We create a premium golf trolley that blends three distinct features: a compact, lightweight design for easy transport, advanced technology for enhanced performance, and a sleek, high-end aesthetic for a stylish look on the course.

**MAIN REFERENCES**
We have sold our trolley to 15 ambassadors (B2C), limiting the number for exclusivity. Additionally, we have sponsored Belgium's two main events: the Soudal Open and the Ladies Open.

**CERTIFICATIONS**
No certification in 2024 yet.

**LOOKING FOR/CONTACTS WITH**
Direct sales and distribution partners. It is particularly important to have a presence to ensure after-sales service for the trolleys.

Strategic partners

# MY ADS PLATFORM

HQ Belgium – Axis Parc – 11 rue Emile Francqui
1435 LOUVAIN-LA-NEUVE (MONT-SAINT-GUIBERT)
BELGIUM
+32 497 032 599

info@myadsplatform.tech
https://myadsplatform.tech/
Facebook: https://www.facebook.com/myadsplatform-mBE/
LinkedIn: https://www.linkedin.com/company/myadsplatform/posts/?feedView=all

**Mr Stéphane LUCIEN**
+32 497 032 599
stephane@myadsplatform.tech

## COMPANY BACKGROUND

MyAds is a self-service platform that allows marketeers to plan, create and launch premium, addressable, & sustainable native, display or video digital campaigns, on local premium inventory, and in a few minutes, without any technical expertise needed. It is a one-stop shop facilitating the creation & delivery of digital campaigns targeted, premium, sustainable & brand-safe allowing marketers to unlock the full potential of their digital buys in a few minutes, utilizing machine learning, automation, and powerful BI. Moreover, the platform access is free, there is no usage or setup fees.

## ADDED VALUE

MyAds Platform was launched in 2019 in Belgium with its IMPACT version only. The ACTION version is now available in Belgium (& Luxembourg), France and Spain where we have offices. The platform also provides access to the UK, Germany, and GCC (Gulf Cooperation Council). A new version of IMPACT, its original visionary version (now all reviewed and redeveloped) has been released and launched in June 2024, all integrated within a single platform.

# NEUROCLUES

Rue du Morimont, 33
1341 CÉROUX-MOUSTY
BELGIUM
+32 493 417 333

info@neuroClues.com
Website: https://neuroClues.com
LinkedIn: https://www.linkedin.com/company/neuro-clues?_l=en_US
Twitter: neuroClues (@neuroClues) / X (twitter.com)

**Mr Gaëtan VANHOUTTE**
+33 6 49 936 822
gaetan.vanhoutte@neuroClues.com

**COMPANY BACKGROUND**
NeuroClues was founded by neuroscientists, engineers and doctors to help better assess neurological health based on eye movements. Supported by decades of research in neuroscience labs, and soon available to non-specialists thanks to a breakthrough technological innovation.

**ADDED VALUE**
Eye movements are a quick, non-invasive way to assess neurological conditions. This can be a game changer, knowing that current neurological evaluations are either performed clinically (and therefore highly dependent on the specialists' abilities), or through invasive, costly and time-consuming complementary exams such as imaging, CSF or blood analysis.

**RANGE OF PRODUCTS**
NeuroClues' first product is a medical device for which regulatory clearance in US and Europe has been submitted. Our best estimate is to receive clearance by the time of CES.

**MAIN REFERENCES**
Ahead of its regulatory clearance, neuroClues is being used as an investigational at the Brain Institute in Paris (France) and at NYU (US).

**CERTIFICATIONS**
Currently ongoing regulatory clearance in Europe and USA (best estimate is to receive the clearance by the time of the CES.)

**LOOKING FOR/CONTACTS WITH**
Direct sales is our approach so far. We would be open in second instance to strategic partners already active in the brain health sector.

# ROMBIO

Place de la Hestre, 3
7170 LA HESTRE
BELGIUM

www.rombio.be
LinkedIn: www.linkedin.com/company/rombio

**Mr Michael SAINT-GUILLAIN**
+32 494 909 847
michael@genko.be

**COMPANY BACKGROUND**
Rombio is a product from Genko company, an academic spinoff from UCLouvain (Belgium). Initially developed in the context of space exploration, in collaboration with NASA, based on Michael Saint-Guillain's PhD, Rombio is now used in biotech and pharmaceutical companies, optimizing their operations and strategic decisions.

**ADDED VALUE**
Rombio is an innovative way, based on the modelling of your process, to generate and optimize your operational schedules and strategic plannings using an artificial intelligence. You can monitor and adapt operations, anticipating future resource requirement. Simulate new resource investments or solve bottlenecks. There are no complex prerequisites, Rombio is a SaaS, fast to deploy and use.

**RANGE OF PRODUCTS**
Rombio : An advanced planning and scheduling software.

**MAIN REFERENCES**
• Takeda Belgium - Schedule entire production
• Gsk – production planification
• Exothera (Univercells) - To plan all their operations and keep a global management view of the planning
• Belgian Hospitals – Schedule the use of surgery room

**LOOKING FOR/CONTACTS WITH**
Distribution partners.

salim@tonomia.com

## COMPANY BACKGROUND
Tonomia is a Belgian technology start-up at the forefront of sustainable energy and advanced Cleantech innovation. Headquartered in the Liège province, strategically positioned near the Belgium-Germany-Netherlands border, Tonomia also operates regional offices in Silicon Valley, USA, and Shenzhen, China. These hubs enable the company to foster global partnerships and strengthen its position in key markets.

## ADDED VALUE
Tonomia's name embodies its core mission: blending technology and nature to enhance autonomy in daily life. The company focuses on innovative solutions that optimize space utilization, integrate smart technologies, support green mobility, and deliver sustainable digital infrastructure. Its flexible approach to work and operations reflects its commitment to fostering a modern and eco-conscious way of living.

## RANGE OF PRODUCTS
Tonomia addresses critical challenges linked to the rising global demand for electricity (EV, AI) by offering sustainable alternatives to traditional infrastructure. Its eParking solar modules integrate solar power, storage, fast charging, connectivity, and durability, with 7 patents pending, enhancing overall efficiency.

## MAIN REFERENCES
Projects pending under NDA in the logistics, retail, and urban sectors.

## CERTIFICATIONS
CE certified; UL certification pending.

## LOOKING FOR/ CONTACT WITH
Partner with resellers and installers of electricity production and storage solutions using photovoltaic technology in California and New York. Collaboration with companies managing data centers (for our eCloud solar hub range).

# WEQUITY

LinkedIn: https://www.linkedin.com/company/wequity-app/

**Mr Franck-Victor Laurant**
+32 471 36 29 83
Franck@wequity.app

**COMPANY BACKGROUND**
Wequity's a scale-up founded in 2021. It's a B2B SaaS company which helps suppliers with the filling of compliance and vendor assessments. This is of particular use within Life Sciences/Pharma, Automotive, Chemicals, Financial Services & IT.

**ADDED VALUE**
Wequity provides 70% time gains in the completion of compliance/vendor assessments and enables a reduction of the sales cycle.

Wequity supports any format in input and output of the vendor assessments. You connect your documents/data with Wequity, and then every time you have a vendor/compliance assessment to complete, Wequity will pre-fill the assessment for you within the original format.

**RANGE OF PRODUCTS**
Wequity has one B2B Software Product.

**MAIN REFERENCES**
Wequity's platform is present across a variety of sectors, with a few example clients below:
Chemicals: Syensqo, Solvay, Kao Chemicals
Life Sciences: Cytiva (part of Danaher group).
Automotive: Marelli
Financial Services: Pictet Group, Belfius Bank
Consulting: KPMG, Arcadis, JLL, Ethifinance
Real Estate: Unibail-Rodamco Westfield
IT: Ecovadis

**CERTIFICATIONS**
 Wequity is GDPR-compliant and ISO 27001 certified, ensuring secure highest IT/data security standards.
