

**¿Qué es la Global Gateway
y qué significa para la
República Dominicana?**

**Global
Gateway**

Visión General

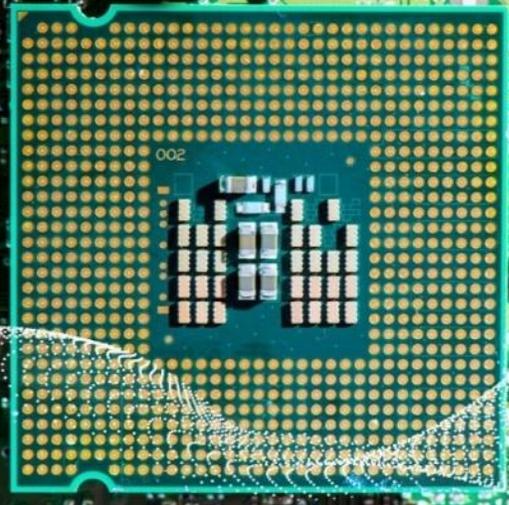

*“Queremos crear **vínculos, no dependencias.** Queremos demostrar que las democracias y las inversiones basadas en valores pueden dar resultados.”*

Ursula von der Leyen,
Presidente de la Comisión Europea

#Global Gateway #Team Europe

El Equipo Europa está formado por la UE, sus Estados miembros, sus redes diplomáticas, las instituciones financieras, incluidos los bancos nacionales de desarrollo, y sus agencias implementadoras, así como el Banco Europeo de Inversiones (BEI) y el Banco Europeo de Reconstrucción y Desarrollo (BERD).

Transición Digital

La UE apoyará un Internet abierto y seguro

Clima y Energía

La UE apoyará inversiones y normas que avancen la transición a la energía limpia

Transporte

La UE apoyará todos los modos de transporte ecológico, inteligente y seguro

Educación e Investigación

La UE invertirá en educación de alta calidad, centrándose en niñas, mujeres y grupos vulnerables

Salud

La UE ayudará a reforzar las cadenas de suministro y la producción local de vacunas

Valores democráticos y altos estándares

Buena gobernanza y transparencia

Asociaciones igualitarias

Verde y limpio

Enfocado en seguridad

Catalizar la inversión privada

¿Cómo se implementará la Global Gateway?

- Instrumentos financieros: Combinación de **subvenciones, préstamos** en condiciones favorables y **garantías** para reducir el riesgo de inversiones privadas.
- Herramientas operativas: **Asistencia técnica**, diálogo político y económico, acuerdos comerciales y de inversión y normalización.
- La **participación del sector privado** es clave!

Compromisos financieros

- De 2021-2027: **Equipo Europa movilizará inversiones de hasta € 300.000 Millones**
- CE: financiamiento por vía de instrumentos como NDICI, IPA III
 - **€135.000 Millones: Inversiones facilitadas por EFSD+**
 - **€18.000 Millones en subvenciones**
- BEI, BERD e instituciones de financiación del desarrollo de estados miembros: **€145.000 Millones de volúmenes de inversión**

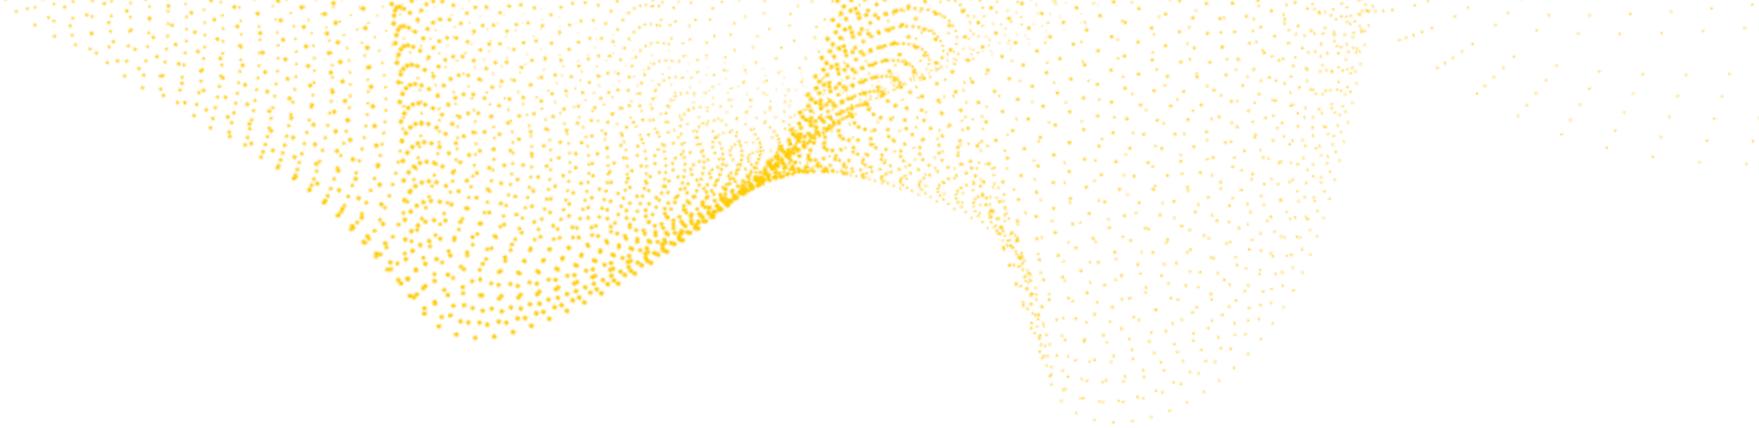

Participantes en la identificación e implementación de iniciativas

Global Gateway y el sector privado

- Déficit de financiación para los ODS: \$4 Billones.
- La Global Gateway facilita la IED a través de inversiones públicas:
 - Apoyo al desarrollo sostenible en países terceros.
 - Reducir el déficit de financiación en sectores con acceso limitado a fondos.
 - Ayudar al sector privado a crecer tanto en la UE como en el extranjero.
- Business Advisory Group (BAG)

**Global
Gateway**

**América Latina
y el Caribe**

Mexico

- Green bond market, interoperability of EU and Mexican taxonomy, access to finance
- Industrial parks, renewable energy, value chains for development of solar plants, electric vehicles, battery production and water systems (Ilocos-Plan Sonora)
- Health resilience and vaccine production
- Integrated water resource management

Guatemala

- Comprehensive Intervention Strategy for the Motagua River Basin to fight contamination
- Drinking water supply to Guatemala City
- Social and economic green transition around Lago Petén Itzá
- Last km connectivity. Investment in connectivity infrastructure to foster digital transformation

El Salvador

- Pacific Train: corridor One linking the port of Acajutla with San Salvador (108 km train)
- Surface Metro Line One: electric passenger transportation system
- Aerocable lines, part of the mass transportation system in the Metropolitan Area of San Salvador
- Last km Connectivity providing broadband connectivity to public schools and health centres in non-served areas
- Pacific optical fibre submarine cable
- Deployment of 5G

Panama

- Energy Transition: power generation, universal access, energy efficiency and sustainable mobility, green hydrogen
- Decarbonisation of the Canal
- Regional Innovation for Centre Vaccines and Biopharmaceuticals
- Copernicus Centre, 100% Digital Coverage, digital business, innovation and education ecosystems

Colombia

- Development of taxonomy for economic activities considered environmentally sustainable
- Green hydrogen production and renewable energy
- Increase connectivity to connect 85% of Colombians by 2026
- Waste water management "Planta de tratamiento de aguas de Canoas"
- Nature based solutions for climate change adaptation
- e-mobility
- Bogota metro line 2

Regional - LAC - Social Cohesion

- Stronger linkages among academia, research and business, better responding to education, innovation and labour market needs
- Partnerships to reduce inequalities and reinforce social policies, accountable public institutions, and inclusive investments to foster just transitions

Regional - LAC - Digital Alliance

- Extension of BELLA cable to Central America and the Caribbean countries
- Regional policy dialogues on cybersecurity, connectivity, e-governance, data governance and Artificial Intelligence.
- Establishment of two regional Copernicus centres for LAC in Panama and Chile
- EU-LAC Digital Accelerator: supporting at least 100 joint ventures between EU and LAC innovative start-ups, SMEs and corporations

Costa Rica

- Sustainable agriculture and fishing
- Sustainable finance, access to finance and development of the green bond market
- Deployment of 5G infrastructure, including last km connectivity
- Development, testing and production of medicines and medical devices
- Adequate legal frameworks, human talent and e-health
- Electrification of the passenger train to the San José great metropolitan area
- Freight train connecting the port of Limón
- Train line connecting to Caldera region
- Conversion of urban bus fleet to electric

Ecuador

- Expansion and improvement of the drinking water and sanitation systems in Quito and Portoviejo Municipality
- Water management projects in areas with highest prevalence of chronic childhood malnutrition
- Childhood vaccination campaign
- Renewable energy and infrastructure electricity transmission in Ecuador-Peru
- Support the development of the green bond market
- Strengthen regional energy integration of the Andean Electricity Interconnection System
- Team Europe Initiative - A Green Deal for Ecuador: innovations and investments at decentralised level
- Ukumari EU-Ecuador Forest Partnership
- Sustainable mobility

Venezuela

- Reduce methane and CO2 emissions for climate action, environmental preservation, and energy efficiency in Monagas State

Honduras

- Dams' construction for sustainable energy production and economic development
- Sustainable recovery of the Yojoa Lake Basin
- Construction of three hospitals to improve access to health services

Peru

- Water Security and Sustainable Water Management in urban areas
- National Parks and Protected Areas Investment Proposal. Promoting sustainable tourism and economic development
- Infrastructure electricity transmission in Ecuador-Peru
- Strengthen regional energy integration of the Andean Electricity Interconnection System
- Team Europe Initiative: Circular Economy and labour markets
- Climate Action Framework Loan: Green energy investments
- Sustainable Social Urban Housing (Fondo MIVivienda)
- Urban Mobility Plan (Bus rapid transit) in the town of Trujillo
- Urban Light Train in Arequipa

Bolivia

- Exploring potential for investment on critical raw materials, in particular lithium
- Renewable energies, especially solar (construction of a 40 MV solar plant)

Regional - LAC - Health Resilience

- Support the development of local medicines and vaccine manufacturing and health systems resilience, including regulatory frameworks.

Regional - LAC - Global Green Bonds Initiative

- Support the development of the green bond market in LAC, thus mobilising capital for financing a sustainable transition.

Regional - LAC - Electro-mobility and Transport

- Leveraging public and private investment to foster electro-mobility and transport with main focus on train, metro, and electric buses.

Regional - Central America & Mexico - Climate and Energy

- Reinforcing the regional electricity market and its dedicated transmission line as well as critical national transmission infrastructure
- Five Great Forests of Mesoamerica initiative
- Corredor Seco: Ecosystem-based Adaptation and Innovative financial mechanisms to increase resilience to extreme climate events

Brazil

- Implementation of the Team Europe-Brazil Tropical Forests Initiative and Amazonia+ programme to prevent deforestation, promote sustainable bioeconomy and traceability of supply chains
- Green low-carbon technologies for SMEs and companies
- Financing of projects in the areas of renewable energy and energy efficiency and promotion of green hydrogen
- Modernisation of the water and sewage services of the public water utility provider
- Construction and operation of port infrastructure
- Digital transition agenda including cybersecurity e-governance and regulatory framework

Regional - Amazon Basin and the Amazonia+

- Regional Amazon Basin aims to reduce deforestation, prevent wildfire impact, and empower indigenous communities in decision-making processes.

Uruguay

- Production of renewable hydrogen and adaptation of Montevideo Port infrastructure
- Infrastructure and management of the water resources in Santa Lucia river basin to make drinking water available
- Support the development of a National Programme for the Promotion of Electric Urban Mobility

Argentina

- Critical raw materials value chains for lithium and copper
- Production of renewable energy
- Investments in energy efficiency, renewable energy and bioeconomy
- Commercialization of green low-carbon technologies
- Expansion and modernisation of the electricity transmission network
- Waste Management improvement
- Development of Norte Grande regional territorial planning, forestry management, sustainable farming, and climate change
- Euro-Argentina academic alliance on scientific cooperation
- Framework development of artificial intelligence
- Internet for All project (SG)
- Rural Development Programme

Regional - LAC - Green Transition

- Support LAC countries in achieving a climate-neutral economy and resilient society in harmony with nature, with a focus on fair and inclusive transition.

Chile

- Local value chains for Critical Raw Material
- Development of renewable hydrogen, Global Gateway Renewable Hydrogen Fund
- Production of carbon-neutral fuels using wind energy (HARU ON) project
- Establishment of a Regional Copernicus Centre in Santiago

Paraguay

- Water and sanitation project in Asunción
- Green-field pulp mill and forestry plantation project
- Renewal of the transmission network of electricity

Regional - LAC - Digital Alliance

- Extension of BELLA cable to Central America and the Caribbean countries
- Regional policy dialogue on cybersecurity, connectivity, e-governance and data governance
- Establishment of two regional Copernicus centres in Panama and Chile
- EU-LAC Digital Accelerator: supporting joint ventures between EU and LAC innovative start-ups, SMEs and corporations

Regional - Caribbean - Transport

- Improve maritime connectivity in the Caribbean to foster regional integration, economic growth and food security.

Jamaica

- Support the development of the green bond market
- Targeted investment to position Jamaica as a global logistics hub
- Improvement of solid waste management in the Harbour area and urban renewal
- Inclusive access to digital technologies in education and MSMEs
- Island-wide broadband access

Cuba

- Support to the Biotechnology industry to meet international standards and increase production scale
- New Wind and Photovoltaic power plants to increase the share of renewables in electricity generation

Regional - Caribbean - Climate & Energy / Education & Research

- Turn Sargassum algae from a threat to an economic opportunity (e.g. biofuel, water purification, agriculture).

Antigua and Barbuda, Dominica, Grenada, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines

- Investments in solar, wind, geothermal and green hydrogen technology
- Reduce chronic water shortages and improve wastewater systems
- Climate Finance: mitigating or adapting to the impacts of climate change
- Supporting Caribbean biodiversity and fighting ocean pollution

Suriname

- Construction of Suriname - Guyana Bridge
- Rehabilitation of Paramaribo's historic centre and climate change adaptation and mitigation measures

Barbados

- Health systems resilience and digital transformation of health facilities
- Investments in solar wind, geothermal and green hydrogen technology
- Reduce chronic water shortages and improve wastewater systems
- Climate Finance: mitigating or adapting to the impacts of climate change

The Bahamas

- Modernisation of the archipelago's energy system

Haiti

- Quality education and climate-resilient school facilities for uninterrupted access to learning
- Education as an agent of change (access, quality, governance)

Trinidad and Tobago

- Support the digital transition, including e-IDs
- Security of water supply, wastewater collection and treatment, storm-water management, flood prevention, coastal protection and solid waste management
- Facilitate shift from grey to green hydrogen through a transition to renewable energy (off-shore wind and solar)

Dominican Republic

- Sustainable urban transport infrastructure
- Integrated waste and water management
- Support the development of the green bond market in LAC and access to finance
- LAC Cyber Competence Centre (LACA) and e-commerce and digitalisation

Guyana

- Implementation of the Forest Partnership and VPA FLEGT
- Expanding off-grid solar panels for the hinterland and transition away from fossil fuels
- Upgrading of the water treatment facilities
- Development and manufacturing of health products

Regional - LAC - Health Resilience

- Support the development of local medicines and vaccine manufacturing and health systems resilience, including regulatory frameworks.

Regional - LAC - Social Cohesion

- Stronger linkages among academia, research and business, better responding to education, innovation and labour market needs
- Partnerships to reduce inequalities and reinforce social policies, accountable public institutions, and inclusive investments to foster just transitions

Regional - LAC - Global Green Bonds Initiative

- Support the development of the green bond market in LAC, thus mobilising capital for financing a sustainable transition.

Regional - LAC - Digital Alliance

- Extension of BELLA cable to Central America and the Caribbean countries
- Regional policy dialogue on cybersecurity, connectivity, e-governance and data governance
- Establishment of two regional Copernicus centres in Panama and Chile
- EU-LAC Digital Accelerator: supporting joint ventures between EU and LAC innovative start-ups, SMEs and corporations

La Cumbre UE-CELAC de Julio 2023 reconoce el potencial de la GGIA

La UE promueve las inversiones en las transiciones verde y digital justas del acceso a recursos

La UE financia y comparte tecnologías de punta desarrolladas y probadas en Europa

ALC incrementa su industrialización para reforzar su autonomía estratégica

ALC accede a la tecnología y el capital necesarios

...y con aplicación de los mejores estándares ambientales, sociales y de gobernanza para reducir las desigualdades y contribuir al desarrollo social

Desarrollo del hidrógeno verde en Chile

Ejemplo: Clima y Energía

Datos clave

- Ubicación: Chile
- Iniciativa conjunta de la UE, el BEI y KfW
- Parte de Equipo Europa Transición Verde
- Objetivo: Producir el 150% del actual mercado mundial de H2 y el 15% de la futura demanda en 2050

Objetivo

Convertirse en líder regional en hidrógeno verde y promover la cooperación Sur-Sur.

Ejecución

- Entorno propicio (apoyo al desarrollo de políticas, capital humano, cadenas de valor, etc.)
- I+D en H2 verde mediante:
 - Asistencia técnica
 - Fondo de I+D+i en producción y aplicaciones de H2 verde
- Facilitación de inversiones privadas con mecanismos de financiación combinada y reducción de riesgos.

Alianza Digital UE-ALC

Ejemplo: Transición Digital

Datos clave

- Ubicación:
América Latina y Caribe
- Lanzamiento:
Marzo de 2023
- Temas: Brújula Digital UE 2030
- Presupuesto total:
€145 Millones

Objetivo

Acercar los mercados digitales de la UE y ALC

Ejecución

- Política digital y marcos normativos a través del diálogo entre partes interesadas
- Programa BELLA: Construcción de una conectividad troncal segura a nivel regional para las redes de investigación y educación
- Acelerador Digital UE-ALC
- Estrategia regional Copernicus: Apoyo a la capacidad de gestión de datos espaciales y su uso estratégico

La UE sigue comprometida con América Latina y el Caribe.

- Más de €45.000 Millones destinados a ALC hasta 2027 a través de la Agenda de Inversiones Global Gateway
- Intercambios políticos regulares a través de las Cumbres UE-CELAC
 - Mayor expansión de los lazos mediante el apoyo a las transferencias de tecnología y el suministro de AOD

- Mayor fuente de AOD para ALC
- Principal inversor en ALC con un stock de IED superior a € 700.000 Millones
 - Uno de los principales socios comerciales con ~ €400.000 Millones anuales de comercio bilateral de bienes y servicios.

Cumbres UE-CELAC

 **Global
Gateway**

**REPÚBLICA
DOMINICANA**

**European Fund for Sustainable
Development (EFSD+)**
Financiación combinada (Blending)
Subvenciones
Préstamos y garantías

MIP
Apoyo Presupuestario: PROTEVI
Etc.

**Agencia Francesa de Desarrollo
(AFD)**

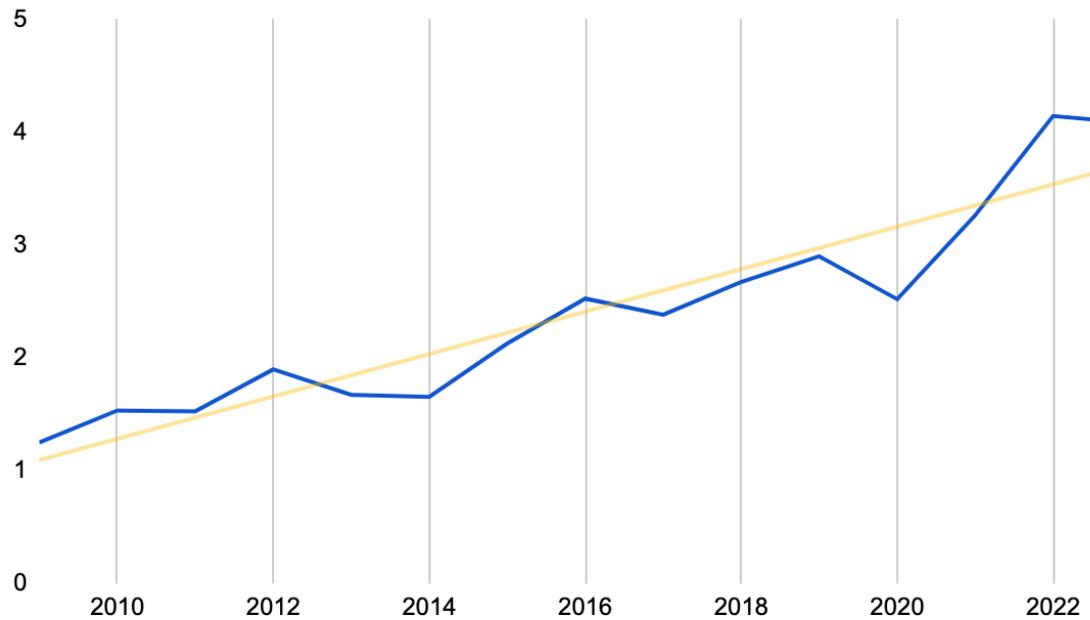

**Agencia Española de Cooperación
Internacional para el Desarrollo
(AECID)**

**Agencia Alemana de Desarrollo
(GIZ)**

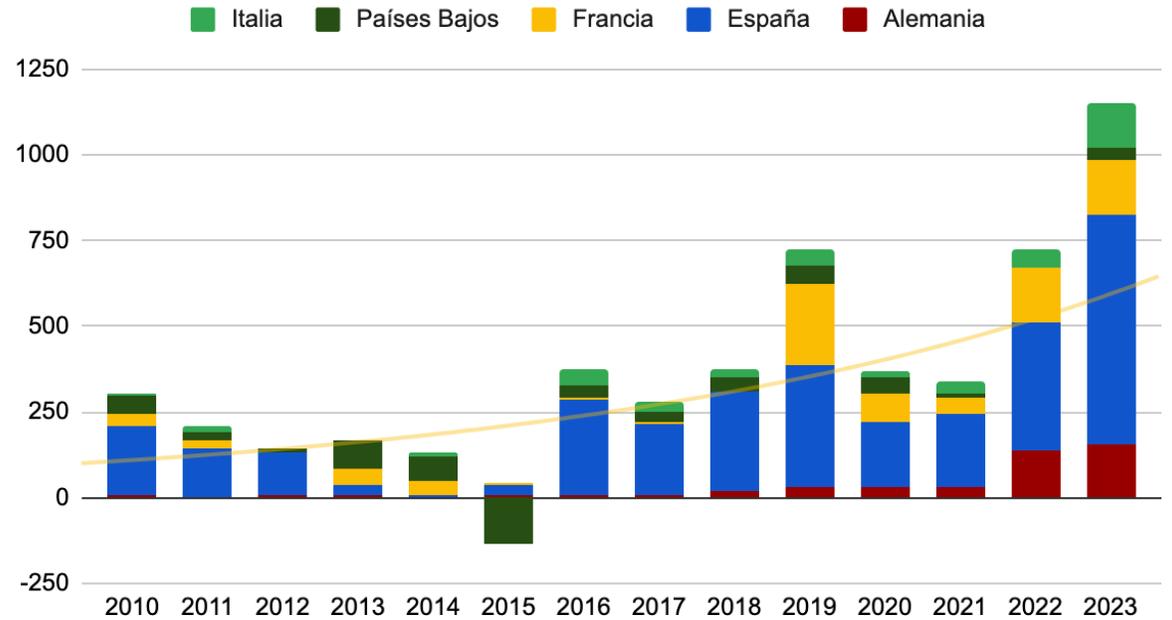

Etc.

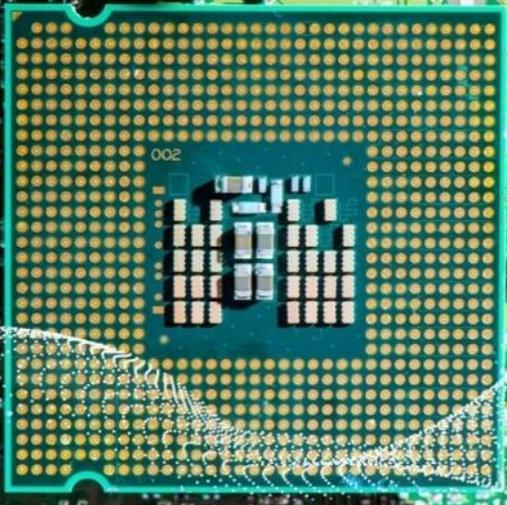

RD y el sector privado de la UE

Comercio Bilateral UE-RD en Mil Millones EUR

IED de las mayores economía de la UE en Millones EUR

Transición Digital

La UE apoyará un Internet abierto y seguro.

Finanzas sostenibles

La UE contribuirá a cubrir el déficit de financiación de los ODS y a impulsar la financiación verde.

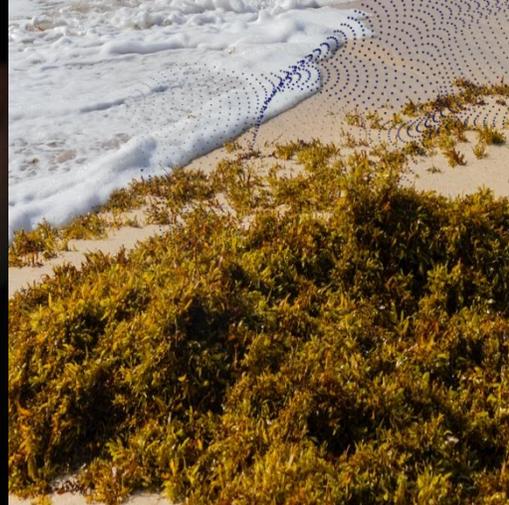

Transporte

La UE apoyará todos los métodos de transporte ecológico, inteligente y seguro.

Agua & Saneamiento

La UE invertirá en sistemas de agua y saneamiento de alta calidad, garantizando la igualdad de acceso para todos.

Sargazo

La UE ayudará a encontrar soluciones a la crisis del sargazo.

**REPÚBLICA
DOMINICANA**

Agenda de Inversiones Global Gateway para la República Dominicana

CLIMA Y ENERGÍA / SALUD

Gestión integrada de aguas y residuos, incluida la construcción de una planta de tratamiento de aguas (Boca Chica) y acceso a servicios de saneamiento.

TRANSPORTE

Infraestructuras sostenibles de transporte urbano para incrementar el acceso a oportunidades económicas y alcanzar el objetivo nacional de reducción de emisiones.

DIGITAL

- Centro ALC de Cibercompetencias (LAC4) para reforzar la capacidad nacional y regional de ciberprotección
- Acelerar la transformación digital para un crecimiento económico inclusivo

PRIORIDAD
2023

CLIMA Y ENERGÍA

Apoyar el desarrollo del mercado de bonos verdes en ALC, y así movilizar capital para financiar la transición sostenible y acceso a la financiación.

Regional - Caribe - Transporte

Mejora de la conectividad marítima en el Caribe para impulsar la integración regional, el crecimiento económico y la seguridad alimentaria.

Regional - Caribe - Clima y Energía

Transformar la amenaza de las algas sargazo en una oportunidad económica (por ejemplo: biocombustibles, depuración de aguas y agricultura).

**REPÚBLICA
DOMINICANA**

Gracias
