The following
Economic Facts and Figures of IAȘI County
reflect entrepreneurial intelligence and creativity
proved by the local community despite the absence of natural resources
and in the conditions of an infrastructure
that disadvantages the competitiveness

This document was developed by the Iasi Chamber of Commerce and Industry having as sources of information the data from the Ministry of Public Finance, The National Trade Register Office, the County Statistics Department of Iasi, other public sources and its own database.

The financial data aggregated and presented in statistical form is related to the annual balance sheets for the period 2008-2016, filed within the legal term and refer to the active companies, respectively the companies with a turnover different from zero, which are registered with the head office in IAȘI County.

MAJOR INVESTMENTS NEEDED

HYDRO-POWER AND IRRIGATION PLANNING OF PRUT RIVER

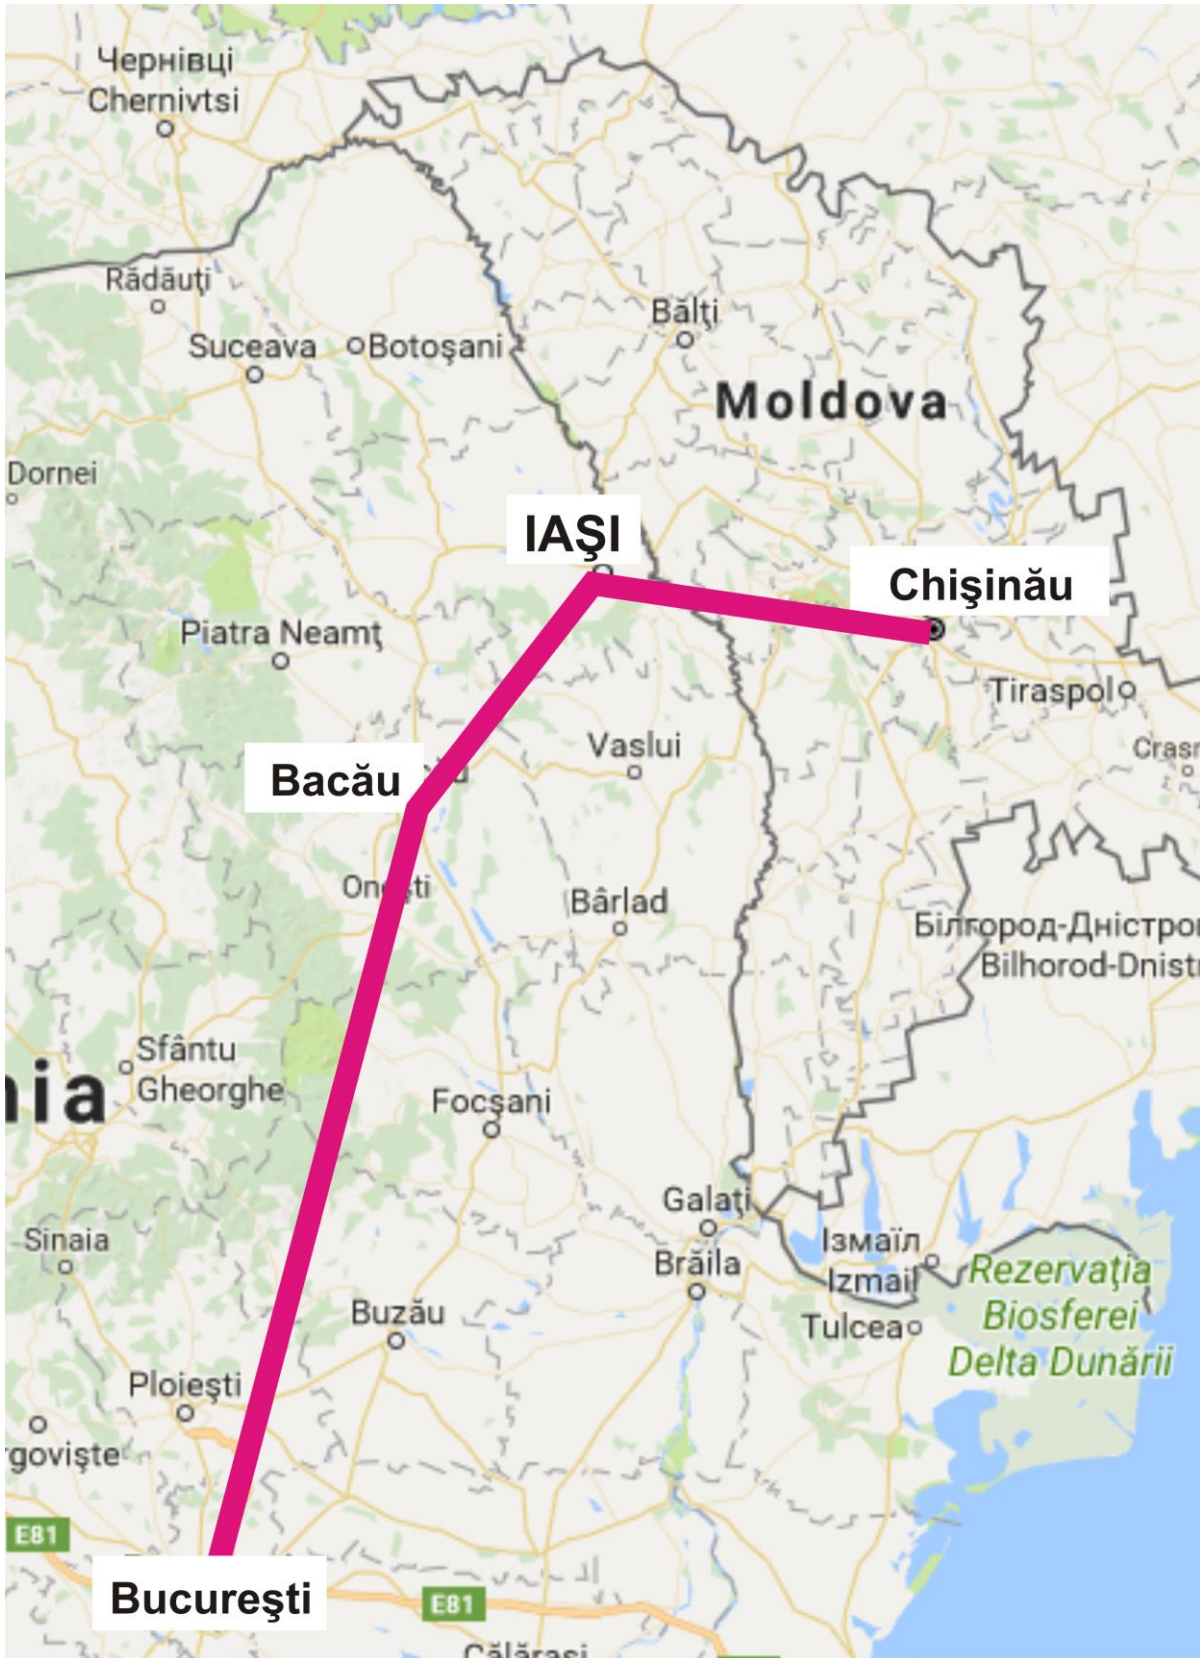

Major benefits:	Possibility to create a new pan-European corridor: Gdansk - Galați or North Sea - Black Sea
Improvement of hydro-power production (installed power of small hydro power plants of about 121 MWh)	Waterway - the cheapest and least polluting transport (barges up to 1,000 tons and draft up to 2.5 m)
Planning can be done with or without sluices	Optimizing projects for irrigation, drainage and fish farming for high performance agriculture
Water supply to local communities (a volume of water of about 1.3 billion m ³)	Tourism development
Improving trade and cultural connections between Romania and the Republic of Moldova	Strategic link with the Republic of Moldova by constructing road crossings at hydro-nodes

MAJOR INVESTMENTS NEEDED

HIGH-SPEED RAIL BUCUREȘTI-BACĂU-IAȘI-CHIȘINĂU

The high-speed line connecting the Republic of Moldova and Moldova Region to București would benefit of a high passenger potential because it allows a max. 2-3 hours trip (instead of 7-8 hours).
